

**GREAT BEGINNINGS  
EARLY CHILDHOOD CENTER**

**BELIEF STATEMENT**

\*We believe that children are a heritage from the Lord to their parents and to the world.

\*We believe that God has entrusted parents with the responsibility of raising their children to be a glory to Him, and a blessing to others. Parents are therefore ultimately responsible for their child's development in all domains –  
spiritual, physical, mental, social, emotional.

\*Great Beginnings exists to provide a program of care and education that will support parents as they raise up their children.

\*We believe that young children learn best through actual experiences, and that our job is to provide an enriched environment and adult guidance which allows them to become safely involved in activities which promote growth in all developmental domains.
